

About Me

Creative Leader and
Graphic Production Expert

Dedicated to ensuring the team delivers at the highest standard, harmonizing the client's vision with a trained eye and proven track record. Energetic and versatile with a strong commitment to deliver innovative and compelling design. Balanced leadership responsibilities with hands-on involvement in critical deliverables. Superb at mentoring, assessing, as well as providing and responding to constructive feedback collaboratively. Proficient at driving multiple initiatives simultaneously while producing high-quality results on all fronts. Fast-working, attentive to both details and the bigger picture.

Hogarth

Senior Production Artist,
Content Production Manager
2019 - 2024

Played a nexus role across multiple teams, enabling the studio to succeed through production, process design, and managerial roles for critical projects. Created and curated various training materials, and provided a constant safety-net of quality assurance all while maintaining the utmost level of client-secrecy across the board. Localized extremely high volumes of pixel-perfect deliverables within extreme time constraints across multi-national campaigns by embracing a core position in an ecosystem of dedicated and exceptional artists. Successfully executed static and dynamic creative for a prestigious, globally renowned client without ever missing a deadline.

Hogarth

Freelance Production Artist
2018 - 2019

Worked within an elite studio comprised of talented multi-national artists, to successfully produce and deliver high volumes of localized print collateral and digital assets as part of specific campaigns and sustained marketing communications for multiple regional markets of eminent clients and their vendors.

BlueCielo

Graphic Designer
2017 - 2018

Redesigned the company's case-study template, as well as delivered effective and engaging collateral in a timely and efficient manner. Working remotely for a company based in a time zone six hours ahead forced me to streamline my own workload by managing the steps necessary to complete various projects at the same time.

Bentley Systems

Junior Designer
2015

Processed and formatted images for the company's big website overhaul. Created both print and digital marketing materials through completing creative requests from multiple marketing campaign teams, including designing and formatting various print advertisements, promotional signage, event handouts, mouse pads, and other promotional materials.

Bentley Systems

Creative Services Intern
2011, 2012

Learned the ins and outs of working within an in-house creative department for a global software company and gained experience executing creative requests as a team. Created static and animated banner ads, splash-screens, and icons for company software, and formatted various data-sheets, papers, and technical documents.

University of Miami

2015
